

WCA Challenge | A day at my school

With this assignment you describe a schoolday at your school. You tell them which subjects there are, at what time school starts and at what time you can go home. How long are the lessons and what does the school-schedule look like?

Junior WCA. This challenge was created by Frank and Teun from BS De Beerze.

EINDHOVEN**

For the elaboration, these ideas are maybe useful:

		
What time does school start and what time does school finish?	Which subjects do you have?	How long do you have a break and what are you doing then?
Does the teacher have the timetable for you?	Which subjects do you have every day and which subjects only once a week?	Maybe you can also tell us something about the holidays.
	Where are the school subjects about?	

		
To clarify your story, perhaps you could add a few examples from the textbooks.	Does everyone in the class do the same or are there some differences?	Make a nice report of this in English.
